DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Amy Fix on 8/17/2009. The application has been amended as follows:

Claims Cancellation:

Claims 1-4, 6-16 and 28-40 have been cancelled.

Claim 18 has been cancelled.

Claim 17 has been amended to read:

17. (Currently Amended) A method of producing hydrogen gas, the method comprising:

providing a membrane, the membrane comprising a support and a catalyst;

passing a first reactant through the membrane from a first chamber to a second chamber containing a second reactant;

allowing the first reactant to come into contact with the catalyst upon passage through said membrane;

imparting the first reactant with enough energy so as to react with the second reactant, wherein the energy imparted on the first reactant activates molecules of the first reactant without forming an ionic species before reaction with the second reactant;

reacting the first reactant with a second reactant to produce hydrogen gas without forming an ionic species before reaction with the second reactant.

2. The following is an examiner's statement of reasons for allowance: There is no prior art of record that discloses or suggests a method of producing hydrogen gas as claimed including imparting the first reactant with enough energy so as to react with the second reactant, wherein the energy imparted on the first reactant activates molecules of the first reactant without forming an ionic species before reaction with the second reactant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
